Subject index*

A

Aberration, rabbit ears, an aid in distinguishing ventricular ectopy from, 634
Acidosis, lactic, case of, 295
Airway obstruction patient, chronic, acute management of, 93
  upper, 654
Ambulance, nurse-staffed, experience with, 748
  project, coronary, Oregon: an experiment, 753
  service, private, experience with, 765

*January-February, pp. 1-168; March-April, pp. 169-340; May-June, pp. 341-538; July-August, pp. 539-686; September-October, pp. 687-858; November-December, pp. 859-1034

American Association of Critical-Care Nurses. Directory, AACN officers, directors, and chapters, 151, 321, 518, 673, 836, 1009
Editors, letters to the, 207, 509, 662, 999
Executive director, office of the, 22, 187, 361
First National Teaching Institute, 24
News and announcements, 189, 366, 563, 711, 876
President's message, 19, 359, 559, 707, 875
Reviews of books and audio-visual materials, 148, 312, 515, 668, 830, 1002
Angina pectoris and myocardial infarction in the presence of patent coronary arteries, a review, 646
with normally patent coronary arteries, 571
Anticoagulants, history of, 812
Aortocoronary bypass surgery, commentary on, 381
II, an updated review, 435
saphenous vein bypass surgery, 383
Arabic nurses and Israeli instructors, medicine in the Gaza Strip, 573
Arrhythmias, electrophysiologic basis of clinical, 51
ventricular, 657
therapeutic approach to the patient with a hard-to-control, 57
Arteries, coronary, angina pectoris with normally patent, 571
Artery, heart and pulmonary, removal of polyethylene catheter emboli from, by wire-snare technique, 620
Atropine, current concepts of its use in acute myocardial infarction, 135
A-V dissociation, modern nomenclature of, 284

B

Bacteremia and hypovolemia in patient with procainamide-induced lupus erythematosus, clinical shock complicating, 124
Balloon pump, intra-aortic, use of, following postoperative pump failure and cardiac arrest, case presentation and discussion, 971
pumping, intra-aortic, management of patients undergoing, 916
Beats, ventricular premature, in acute myocardial infarction, 139
Blood components, cardiac surgery using, without whole blood transfusion, 804
flow, myocardial, newer clinical considerations, 78
-gases and blood-gas transport, 945
pressure, elevated, in community, control of, an epidemiologic approach, 477

C

Carboxyhemoglobinemia and secondary lactic acidosis, 817
Cardiac arrest, use of intra-aortic balloon pump following postoperative pump failure and, case presentation and discussion, 971
care, emergency, in metropolitan office building, 775
system, emergency, reduction of pre-hospital, ambulance, and hospital coronary death by pre-hospital, 742
catheterization in infants and children, 407
emergencies, out-of-hospital care for, prevention of sudden death in community, 733
pacemakers, indications for pacing, 989
patients, a physical therapy program for rehabilitation of, 592
rate, changes in, associated with use of rectal thermometer in patient with acute myocardial infarction, 288
rehabilitation program at University of California-Irvine, 576
comprehensive, 578
surgery, immediate postoperative care after, 415
using blood components without whole blood transfusion, 804
surgical care, postoperative, automated management of, 929
patients, overview, postoperative care of, 891
Cardiocirculatory effects of morphine sulfate, mechanisms of action and therapeutic application, 496
Cardiogenic shock following myocardial infarction, 252
Cardiopulmonary rehabilitation, the nurse, her role in, 587
unit, computer-based, 581
Cardiovascular disease, infant and child with, 390
Catheter emboli, polyethylene, removal of, from heart and pulmonary artery by wire-snare technique, 620
Swan-Ganz, pulmonary, implications for nursing, 976
Catheterization, cardiac, in infants and children, 407
Chest-tube drainage system, indications and principles of operation, 97
Child and infant with cardiovascular disease, 390
Children and infants, cardiac catheterization in, 407
congestive heart failure in, 396
Coagulation, disseminated intravascular, a problem in critical-care medicine, 789
Community rehabilitation after acute myocardial infarction, 258
Computer-based cardiopulmonary rehabilitation unit, 581
Congenital heart disease, management of symptomatic neonate with, 392
respiratory problems associated with, 401
Congestive heart failure in infants and children, 396
Coronary ambulance project, Oregon: an experiment, 753
arteries, angina pectoris with normally patent, 571
patent, angina pectoris and myocardial infarction in presence of, a review, 646
artery disease, surgical and medical, management of, 298
care unit, mobile, eight-year experience with stadium-based, 770
oxygen administration in, 102
standard logbook for, 808
death, reduction of pre-hospital, ambulance, and hospital, by pre-hospital emergency cardiac care system, 742
disease, contemporary approach to, 49
heart disease, stress testing in, 83
surgery, postoperative care following, 912
Critical-care medicine, disseminated intravascular coagulation, problem in, 789
patient education as part of, 47

D

Death, coronary, reduction of pre-hospital, ambulance, and hospital, by pre-hospital emergency cardiac care system, 742
sudden, prevention of, in community, out-of-hospital care for cardiac emergencies, 733
Dialysis programs, home, development and standardization of core curriculum for, 117

Digitalis toxicity, 503
Diuretics, patients discharged on, prime candidates for individualized teaching by nurse, 108
Drainage system, chest-tube, indications and principles of operation, 97

E

Ectopic beats of idioventricular tachycardia, myocardial infarction diagnosed from, 129
Ectopy, ventricular, aid in distinguishing, from aberration, rabbit ears, 634
Education, patient, as part of critical care, 47
Electrocardiogram, experience, telemetry, base hospital, 756
Emboli, polyethylene catheter, from heart and pulmonary artery by wire-snare technique, removal of, 620
Embolism, pulmonary, current concepts of, implications for nursing practice, 209
problem of, 207
radioisotopic diagnosis of, 227
therapeutic aspects of, 233
Emergencies, cardiac, out-of-hospital care for, prevention of sudden death in community, 733
Emergency cardiac care system, reduction of pre-hospital, ambulance, and hospital coronary death by pre-hospital, 742

G

Endotracheal and tracheostomy tube cuffs, measurement of lateral wall pressures exerted by, 797

Gastrointestinal surgery, sepsis following, recent considerations, 615
Gaza Strip, medicine in the, Arabic nurses and Israeli instructors, 573

H

Heart, beef, dissection of, with clinical correlations, 641
disease, congenital, management of symptomatic neonate with, 392
respiratory problems associated with, 401
coronary, stress testing in, 83
failure, congestive, in infants and children, 396
valve surgery, postoperative care following, 893
Hemiblock, left posterior, difficulties in diagnosis of pure, without right bundle branch block in acute myocardial infarction, 626
Hypotension, over-all approach to patient with, 463
Hypovolemia and bacteremia in patient with procainamide-induced lupus erythematosus, clinical shock complicating, 124
Hysteresis, pacemaker, 982

I

Infant and child with cardiovascular disease, 390
Infants and children, cardiac catheterization in, 407
congestive heart failure in, 396
Infarction, myocardial, acute, atropine, current concepts of its use in, 135
community rehabilitation after, 258
delays between onset of, and definitive care, 263
difficulties in diagnosis of pure left posterior hemiblock without right bundle branch block in, 626
pericarditis in, 247
ventricular premature beats in, 139
cardiogenic shock following, 252
changes in cardiac rate associated with use of rectal thermometer in patient with, 288
diagnosed from ectopic beats of idioventricular tachycardia, 129
first hour in acute, 736
full recovery from, psychosocial factors, 600
in the presence of patent coronary arteries, a review, angina pectoris and, 646
Intra-aortic balloon pump, use of, following postoperative pump failure and cardiac arrest, case presentation and discussion, 971
pumping, management of patients undergoing, 916
Intravascular coagulation, disseminated, a problem in critical-care medicine, 789
Israeli instructors and Arabic nurses, medicine in the Gaza strip, 573

J

Journal, content and purposes of, 889

L

Lactic acidosis, case of, 295
secondary, carboxyhemoglobinemia and, 817
Lateral wall pressures, measurements of, exerted by tracheostomy and endotracheal cuffs, 797
Life-support units, 770
Logbook, standard, for coronary-care unit, 808
Lung, shock, etiology, prevention, and treatment, 933
Lupus erythematosus, procainamide-induced, clinical shock complicating hypovolemia and bacteremia in patient with, 124

M

Morphine sulfate, cardiocirculatory effects of, mechanisms of action and therapeutic application, 496
Myocardial blood flow, newer clinical considerations, 78
Myocardial infarction, acute, atropine, current concepts of its use in, 135
changes in cardiac rate associated with use of rectal thermometer in patient with, 288
delays between onset of, and definitive care, 263
difficulties in diagnosis of pure left posterior hemiblock without right bundle branch block in, 626
pericarditis in, 247
ventricular premature beats in, 139
cardiogenic shock following, 252
community rehabilitation after acute, 258
diagnosed from ectopic beats of idioventricular tachycardia, 129
first hour in acute, 736
full recovery from, psychosocial factors, 600
in the presence of patent coronary arteries, a review, angina pectoris and, 646

N

Neonate, optimal supportive care of, through community training, a model course, 268
symptomatic, with congenital heart disease, management of, 392

Nurse editor, new, 45
her role in cardiopulmonary rehabilitation, 587
Nursing practice, current concepts for of pulmonary embolism, implications for, 209

O

Obstruction, airway, chronic, acute management of patient, 93
upper airway, 654
Office building, emergency cardiac care in metropolitan, 775
Open-heart surgery, immediate postoperative care after, 415
Oregon coronary ambulance project: an experiment, 753
Outpatient rehabilitation center, rehabilitation counseling of heart patient in, 594
Oxygen administration in coronary-care unit, 102

P

Pacemakers, cardiac, indications for pacing, 989
hysteresis, 982
malfunction, simplified logical approach to evaluation of temporary, 624
Pacing, indications for, cardiac pacemakers, 989
modalities of, 820
Pediatric cardiac patient, postoperative care in, 903
Pericarditis in acute myocardial infarction, 247
Physical therapy program for the rehabilitation of cardiac patients, 592
Polyethylene catheter emboli, removal of, from heart and pulmonary artery by wire-snare technique, 620
Posterior hemiblock, left, difficulties in diagnosis of pure, without right bundle branch block in acute myocardial infarction, 626
Postoperative cardiac surgical care, automated management of, 929
care following coronary surgery, 912
heart-valve surgery, 893
in the pediatric cardiac patient, 903
of cardiac surgical patients—overview, 891
pump failure and cardiac arrest, intra-aortic balloon pump following, case presentation, discussion, 971
Pressures, lateral wall, measurements of, exerted by tracheostomy and endotracheal tube cuffs, 797
Psychiatric complications following open-heart surgery, 415
Psychosocial factors, full recovery from myocardial infarction, 600
Pulmonary catheter, Swan-Ganz, implications for nursing, 976
embolism, current concepts of, implications for nursing practice, 209
massive, recognition and management of, 241
problem of, 207
radioisotopic diagnosis of, 227
therapeutic aspects of, 233
function evaluation, preoperative, 500
thromboembolism, radiological diagnosis of, 219
Pump failure, postoperative, and cardiac arrest, use of intra-aortic balloon pump following, case presentation and discussion, 971

R

Rabbit ears, an aid in distinguishing ventricular ectopy from aberration, 634
Rehabilitation, cardiac, program at University of California-Irvine, 576
cardiopulmonary, the nurse, her role in, 587
center, outpatient, rehabilitation counseling of heart patient in, 594
community, after acute myocardial infarction, 258
counseling of the heart patient in outpatient rehabilitation center, 594
program, cardiac, comprehensive, 578
unit, cardiopulmonary, computer-based, 581
Respiratory problems associated with congenital heart disease, 401

S

Saphenous vein bypass surgery, aortocoronary, 383
Sepsis following gastrointestinal surgery, recent considerations, 615
Shock lung, etiology, prevention, and treatment, 933
Sickle cell anemia, pathophysiologic aspects, 955
therapeutic considerations, 962
Sinai, war in, nursing care of the critically wounded, 385
Stress testing in coronary heart disease, 83
Supraventricular tachycardias, approach to, 64
Surgery, case against, 132
open-heart, immediate postoperative care after, 415
Swan-Ganz pulmonary catheter, implications for nursing, 976

T

Tachycardia, idioventricular, myocardial infarction diagnosed from ectopic beats of, 129
supraventricular, approach to, 64
Telemetry, experience in, of electrocardiogram to base hospital, 756
Therapy, physical, program for the rehabilitation of cardiac patients, 592
Thermometer, rectal, changes in cardiac rate associated with use of, in patient with acute myocardial infarction, 288
Thromboembolism, pulmonary, radiological diagnosis of, 219
Toxicity, digitalis, 503
Tracheostomy and endotracheal tube cuffs, measurement of lateral wall pressures exerted by, 797
review of present day indications, complications, and care, 272
Transfusion, whole blood, cardiac surgery using whole blood components without, 804

U

Upper airway obstruction, 654

V

Ventricular arrhythmias, 657
therapeutic approach to the patient with a hard-to-control, 57
ectopy, aid in distinguishing, from aberration, rabbit ears, 634
premature beats in acute myocardial infarction, 139

W

Wire-snare technique, removal of polyethylene catheter emboli from heart and pulmonary artery by, 620
